The reel leader.

Petroleum Hose Reels

The
Hannay
Way

Home Fuel Delivery • In-plant Refueling • Marine Refueling
Off-road Vehicle/Equipment Refueling

www.hannay.com

Pride in workmanship • Reels built to order • Consistent quality • Service with integrity • Value for your dollar

Note to Designers and Engineers:

The reels shown in this catalog are the standard of the industry.

These models reflect various installation and performance requirements.

The high quality of our standard steel construction is only the beginning.

Hannay Reels offers any size configuration to fit a defined space, and we construct many models of reels of aluminum or stainless steel. Specifically, we use 5000 and 6000

Series aluminum and 304 stainless steel in the manufacture of frames, discs, drums and internals as well as other structural components. This type of construction eliminates the need for maintenance repainting and part replacement due to rust or corrosion.

Please consult factory on any fuel handling questions.

For the many accessories and components available on our standard reel models such as roller guides, switches, brakes and locks, etc., please refer to our Ordering & Accessory Guide H-0415-OA.

Paint Notice

To meet the requirements and performance of vehicle and OEM apparatus paints we recommend our reels be painted with the same or equal paint as used on the specific apparatus the reel is being mounted on.

Hannay Reels will supply any model or custom reel or part with an automotive primer or rust preventative oil finish upon request, allowing application of final coating at your facility. Or at additional cost Hannay can prime / pre-paint all material before final assembly.

In today's regulatory environment this would be the most cost-effective way to meet your finishing standards.

Consult factory for other optional finishes

Standard finish is oven cured enamel. High performance finishes for demanding and corrosive environments are available at an additional cost. Consult factory for specific requirements.

S E R I E S

1 1/2"

MANUAL OR POWER REWIND REELS

To handle single 1" through 1-1/2" I.D. hose.

- A strong, heavy-duty reel.
- Gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Optional auxiliary crank rewind for power rewind reels.
- Choose EP or EPJ option.
- Comet brake, standard on power rewind without auxiliary crank.
- 90° ball bearing swivel joint with 1-1/2" female NPT threads and 2" victaulic groove.
- Flanged riser with 1-1/2" female NPT threads.
- Other sizes and/or threads can be furnished and must be specified.
- Inlet, outlet riser, hub assembly are steel.
- Stainless steel, aluminum, at extra cost.
- Rollers may be purchased, specify roller position.
- Mounting brackets are necessary.
- Pressures to 600 psi (41 bar)
- Temperatures from -40°F to +175°F (-40° C to +79° C).
- Consult factory for other pressures & temps.

Notes:

- Specifications subject to change.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Dimensions shown for reels up to and including 30-31 disc size reflect pressed frames. All others are channel frames.
- Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models:

	Net (lbs.)	Ship (lbs.)	Net (kg.)	Ship (kg.)
Electric	40	40	18.1	18.1
Hydraulic	20	20	9.1	9.1
Air	20	20	9.1	9.1

- When ordering power rewind models, prefix model number with:
 - A = Air Rewind—Supplied with control valve and hose.
 - EP = Electric Rewind (1/2HP)—12v and 24v DC rewind supplied with non-explosion proof switch and solenoid, 115v AC rewind is not supplied with switch but it can be ordered separately.
 - EPJ = Explosion Proof Electric Rewind (1/2 HP)—Supplied with explosion proof switch, solenoid, and junction box.
 - HD = Hydraulic Rewind—Not supplied with control valve.
- For a detailed parts breakdown drawing, request ISO 18.
- For Air Rewind on models over 100 ft. of 1-1/2" consult factory.

8. Be sure to check dimensions and weights prior to ordering.

NOTICE: A Flexible Connector must be used between the inlet pipe and the inlet swivel joint.

* Some applications may require a different motor and/or a clutch/reduction unit.

2"

MANUAL OR POWER REWIND REELS

To handle single 1-1/2" or 2" I.D. hose.

- Gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Optional auxiliary crank rewind for power rewind reels.
- Choose EP or EPJ option.
- Comet brake on power rewind without auxiliary crank.
- 90° ball bearing swivel joint with 2" victaulic.
- Flanged riser with 2" female NPT threads.
- Other sizes and/or threads can be furnished and must be specified.
- Inlet, riser, hub assembly are steel.
- Stainless steel, aluminum at extra cost.
- Rollers may be purchased, specify roller position.
- Mounting brackets are necessary.
- Pressures to 600 psi (41 bar).
- Temperatures from -40° F to +175° F (-40° C to +79° C).
- Consult factory for other pressures & temps.

- Recommended on reels with 39" diameter or larger discs, increased torque, slower rewind speeds.
- Factory-installed.

**Series 2"
EPJ Option Shown**

NOTICE: A Flexible Connector must be used between the inlet pipe and the inlet swivel joint.

IV

POWER REWIND REELS FOR INVERTED INSTALLATION

To handle single 1-1/4" I.D. through 2" I.D. hose.

- Chain and sprocket drive powered by an electric, hydraulic, or compressed air motor.
- Comet brake, air caliper brake, standard.
- 90° ball bearing swivel joint with 1-1/2" female NPT and 2" groove.
- Optional 2" intervals also available.
- Flanged riser with 1-1/2" female NPT threads.
- Inlet, riser, hub assembly are steel.
- Stainless steel, aluminum, at extra cost.
- Pressures to 600 psi (41 bar).
- Temperatures from -40° F to +175° F (-40° C to +79° C).
- Consult factory for other pressures & temps.

Notes:

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
3. When ordering power rewind models, prefix model number with:
 A = Air Rewind—Supplied with control valve and hose.
 EP = Electric Rewind (2/3HP)—12v and 24v DC rewind supplied with non-explosion proof switch and solenoid.
 EPJ = Explosion Proof Electric Rewind (2/3 HP)—Supplied with explosion proof switch, solenoid, and junction box.
 HD = Hydraulic Rewind—Not supplied with control valve.
4. For a detailed parts breakdown drawing, request ISO 103.
5. Be sure to check dimensions and weights prior to ordering.

NOTICE: A Flexible Connector must be used between the inlet pipe and the inlet swivel joint.

* When ordering with 2" inlet/outlet, place a "2" after IV.
 re: IV 220-39-40

IV 5000

SINGLE WRAP POWER REWIND REELS

Standard Model Shown
(Hose not included)

To handle single 1-1/2" I.D. through 2" I.D. hose.

- Effortless and fast rewinding, wrapping, guiding of hose.
- Chain and sprocket drive powered by electric, hydraulic, compressed air motor.
- Auxiliary crank rewind.
- 12 volt rewind, comet brake standard.
- Air brake optional.
- 5100 series - 90° ball bearing swivel joint 1-1/2" female NPT threads, 2" victaulic groove, flanged riser with 1-1/2" female NPT threads.
- 5200 series - 90° ball bearing swivel joint 2" victaulic groove, flanged riser with 2" female NPT threads.
- Inlet, hub assembly is aluminum.
- Joint & riser ductile iron for petroleum fuel.
- Pressures to 600 psi (41 bar).
- Temperatures from -40° F to +175° F (-40° C to +79° C).
- Standard with a reduction unit only. Electric clutch units optional.
- Consult factory for other pressures & temps.

Notes:

1. Specifications subject to change.
2. When ordering power rewind models, prefix model number with:
A = Air Rewind EP = Electric Rewind (1/2 HP) HD = Hydraulic Rewind
(Air rewind reels are supplied with control valve and hose;
12v and 24v DC rewind reels are supplied with switch and solenoid;
hydraulic rewind reels are not supplied with control valve.)
3. For a detailed parts breakdown drawing, request ISO 197.
4. **Be sure to check dimensions and weights prior to ordering.**

NOTICE: A Flexible Connector must be used between the inlet pipe and the inlet swivel joint.

Guide for Series IV Inverted Installations

For reels with 1-1/2" I.D. hub assembly to handle 1-1/4" through 2" I.D. hose.

When ordering a reel for inverted installation, please specify which of the following component locations you prefer. Please specify component location by letter. If not otherwise specified, reels will be shipped as shown in A.

FROM CURBSIDE

FROM STREETSIDE

Installation A

Hose unwinds from top of reel to curbside and from bottom of reel to street-side. Swivel joint is on side nearest tank. Rewind mechanism and braking devices are at the rear of the truck. Rewind motor is on streetside.

Installation B

Hose unwinds from top of reel to curbside and from bottom of reel to street-side. Swivel joint, rewind mechanism, braking and locking devices are at the rear of the truck. Rewind motor is on streetside.

Installation C

Hose unwinds from bottom of reel to curbside and from top of reel to street-side. Swivel joint is on side nearest tank. Rewind mechanism, braking and locking devices are at the rear of the truck. Rewind motor is on streetside.

Family owned and operated since 1933, Hannay Reels is a leader in both OEM and aftermarket applications. Hannay offers thousands of standard hose reel and cable reel models, as well as unmatched custom capabilities. We can easily and affordably customize a reel to meet your exact specifications – built to last, delivered fast. Additional catalogs are available through your local Hannay Reels dealer or online at www.hannay.com.
