

Hannay RCB (Relay/Circuit Breaker) Kits

Reel-Mounted Relay/Circuit Breaker Kits

These kits, when ordered along with reels, are factory-installed. Ordering an RCB unit means significant installation labor savings, as it is no longer necessary to fabricate and mount a bracket to house a circuit breaker and solenoid.

The only item an installer must mount separately is a push-button switch to control the reel motor.

RCB kits are designed to work with several different reel models

- 1600 Series Cable Reels
- 2000 Series Dual (1/4" or 1/2") Reels
- 1500 Series 1/2" Hose Reels
- 1800 Series 3/4" Hose Reels
- 4000 Series 1" Hose Reels

Pricing and Part Number Information (when ordered with a reel)

Hannay Part No.	Description	List Price
9917.0311	RCB-25 (Relay & 25-amp C.B.) installed on any reel; includes push-button switch	\$51.00
9917.0312	RCB-40 (Relay & 40-amp C.B.) installed on any reel; includes push-button switch	\$51.00
